Samuel Rivera Barrientos

Profile

Experienced Full Stack Developer and QA Analyst with a background in front-end technologies such as HTML5, CSS3, SASS, JavaScript, and TypeScript. Proficient in creating visually appealing and interactive user interfaces using frameworks like React, Svelte, Bootstrap, and Tailwind CSS. Back-end development experience includes Node.js with Express and working with databases like PostgreSQL and MongoDB. Experienced in comprehensive testing, bug fixing, and ensuring compliance with quality standards. Skilled in developing and maintaining responsive websites and web applications, seamlessly integrating front-end and back-end components. Holds a solid foundation in computer science principles and practical development skills.
